On behalf of Saahuus?ath Chief and Council

Our thoughts, prayers and condolences are with the many grieving families at this time. We are currently pulling together all necessary support services to assist in and around our community.

Tragic and sudden loss is traumatic. Chief and Council recognizes the need for extra measure to be in place at this time to hold our community up.

Over the next few days, cultural and counseling supports will be accessible for anyone that requires the added support. Please reach out to any Councillor, phone the office or email us at info@ahousaht.ca

Chief and Council also recognizes that the current losses of life are deeply impacting our youth and that added supports are also required specifically for them as well.

We all walk lightly and respectfully during these hard times. Pull your loved ones close and check in on those that may need extra love during this time.

With love and respect,
