We have members who continue to isolate and/or recover; we also have members awaiting testing/results.

Partying: Continues to be a huge concern from Families, Leadership and Health staff. The partying needs to stop. We need everyone to help bring our family member’s home.

Isolation: will need a support person; we encourage for homes in isolation have a tote outside for people to drop off items. If you are interested, we can provide with a care kit (per home), email eoc@ahousaht.ca

Any questions or recommendations, email eoc@ahousaht.ca
